Software Developer

Java • Spring Boot • JavaScript • React • Angular • Node.js • SQL • Python • C
Version Control (Git, BitBucket) • Linux (terminal commands) • Agile

Intro:

Computer programmer specializing in fullstack web development with a Computer Science degree from Rutgers University NB. Proficient with a handful of different languages, libraries, and other programming skills. I work well on a team, I'm highly self-motivated, and I'm always excited to learn.

Experience:

Vanguard, Inc. (contracted via Infosys) January 2023-Present Java Developer

- Modernized backend REST APIs using Java Spring Boot, created new Enterprise level projects in Eclipse and IntelliJ
- Produced detailed design documentation, and unit testing with JUnit and Mockito
- Maintained multiple postgres / SQL databases with pgAdmin and DBeaver

Infosys Limited 2022-2023 Full Stack Developer

- Received training in technologies like Spring Boot and Agile software development
- Worked on internal projects using React / Angular to optimize employee experience

Education:

Rutgers University, New Brunswick

BS in Computer Science, Minor in Russian Language and Literature

Graduated: January 2022 **GPA:** 3.5

- Externships with AT&T and Cognizant

Projects and Work Portfolio:

Personal Website (contains projects below): <https://benjamin-ryan-garcia.github.io>

- Developed a Chess app for Android API 29 (Java)
- Wrote the backend for a server for applications such as online auction sites (SQL)
- Created web applications using web-APIs and JavaScript for personal projects
