## EXPERIENCE

### ADP — Application Consultant

2024 - PRESENT

- Configured proprietary ERP systems and customized timesheets, pay rules, time off rules for critical customers such as ScotiaBank, Volkswagen America, Schreiber Foods, etc.
- Developed and implemented roadmap features including IVR / SMS support for ADP's Workforce Software solution

### Vanguard, via Infosys — Java Developer

2023 - 2024

- Modernized legacy Cobol systems into backend REST APIs using Java Spring Boot, and created new Enterprise level projects in Eclipse and IntelliJ
- Produced detailed design documentation, and unit testing with JUnit and Mockito
- Maintained multiple postgres / SQL databases with pgAdmin and DBeaver

### Infosys — Full Stack Developer

2022 - 2023

- Received training in technologies like Spring Boot and Agile software development
- Worked on internal projects using React / Angular to optimize employee experience

## EDUCATION

### Rutgers University, New Brunswick— *BS Computer Science*

September 2018 - January 2022
